A Fact.
In the future through the sky,
Surely man will fly,
By and by, by and by,
That's a fact and not a fable.
Like birds in the air,
By and by, with our dear,
And why should not man be able.
But to start the ride,
Air is, for a heavy weight,
Very light, very light,
And George would surely fall;
Therefore at the ten cent store,
He almost stays for evermore,
And tends to every call.

DAILY NEVADA STATE JOURNAL

STORMS IN CALIFORNIA.

A BILL TO MAKE YOSEMITE VALLEY A PUBLIC PARK.

The Western Union Courts an Investigation—Purchase a Salted Mine.

Storms in California.

Special to the Journal.

SACRAMENTO, March 18.—It has rained without intermission all night, and this morning brought no prospect of clearing. In many places in the valley the fall was very heavy and there was rain at every point in Northern California where records are kept. There was rain and snow in the Sierra Nevada last night and to-day, but the fall is relatively mild for that region. Eight inches of snow fell at the Summit in 24 hours, six inches at Cisco, four at Emigrant Gap, and two at Blue Canyon. No interruption to traffic on the Central Pacific is anticipated. The new rotary plow reached Truckee this morning and was put to work at once in seven feet of packed snow on the siding in Strong's canyon. The old rotary is stationed at Emigrant Gap and the cyclone is at Cascade. Thus equipped the railway company has utmost confidence in its ability to cope with all the snow that may fall. A landslide on the main Oregon line above Redding occurred last night and delayed all trains en route. No one was injured by the slide, and it is simply a question of a short time when the obstruction will be removed and the rails cleared.

Court an Investigation.

Special to the Journal.

WASHINGTON, March 18.—Edward Rosewater, editor of the Omaha Bee, and practical telegrapher, argued before the House Committee to-day on behalf of postal telegraph. He advocated the proposition that the Government buy up all telegraph lines, then advertise for proposals to have a private corporation operate the postal telegraph system under the control of the Government.

Chairman Bingham laid before the Committee a letter from Dr. Green and General Eckert, of the Western Union, in which they say the Executive Committee instructed them to invite the Committee to visit the Company's headquarters in New York and examine their general operations. The letter says: "We court a most thorough investigation and are willing you should employ experts to go through our books, accounts and statements."

Passes the Senate.

Special to the Journal.

WASHINGTON, March 18.—The amendments to the Urgency Deficiency bill were agreed to in the Senate as follows: For agricultural experiment stations in New Mexico, Arizona and Utah, \$30,000; for preliminary investigations for artesian wells for irrigation purposes within the area west of the 27th meridian, and east of the Rocky Mountains, \$20,000; making an additional appropriation of \$33,000 for the Fish Commission. All the amendments having been disposed of, the bill was passed.

Want Lower Rates.

Special to the Journal.

SAN DIEGO, March 18.—At this morning's meeting of the Transcontinental Railroad Association, the California Fruit Growers submitted a petition praying for lower rates to the East for fruits and goods. The petition was taken under advisement until to-morrow. The Canadian Pacific differentials which were expected to cause some trouble, came up for adjustment and the Association concluded to let them go for another year without any change.

Government Defeated.

Special to the Journal.

LONDON, March 18.—The Government was defeated in the House of Commons this evening on motion of Buchanan, Liberal, complaining of encroachments upon the public right of way in Scotland. A number of Unionists and a few Scotch Conservatives supported the motion which was adopted by 110 to 97. The Government has summoned Balfour to London.

Around the World in 60 Days.

Special to the Journal.

TACOMA, March 18.—At 6 o'clock this morning George Francis Train started from the Ledger office on his trip around the world. He was driven to the steamer Olympia which took him to the steamer Abyssinia, at Victoria, on which he embarked for China. Train is in fine health and spirits and is confident that he can make the trip within 60 days.

Joined the Strikers.

Special to the Journal.

SAN FRANCISCO, March 18.—The iron-moulders brought from the East by the Union Iron Works to take the places of the strikers arrived to-night in two divisions. The first of these, composed of 18 men, was approached on the Oakland boat by delegates from the strikers and seven of them were persuaded to repudiate their contract with the Union Iron Works and join the ranks of the strikers.

Yosemite as a Public Park.

Special to the Journal.

WASHINGTON, March 18.—A bill was introduced in the House to-day setting apart Yosemite Valley for a public park.

\$2,000,000 for a Salted Mine.

Special to the Journal.

SAN FRANCISCO, March 18.—A local paper states that the recent sale of the Mulatto mine, of Sonora, Mexico, was a deliberate swindle, the mine having been salted. Some time ago the Rothschilds, of London, desired to buy the mine and sent Alex Jamin and D. J. Gillette to expert it, while Hamilton Smith, Jr., conducted the negotiations in this city. The price previously asked was \$800,000, but this was now increased to \$2,000,000 and the Rothschilds pulled out. Alvinza Hayward, the well known millionaire of this city, conferred with them and agreed to take 45 per cent of the stock if the English capitalists took the remainder. This was agreed to and the sale was consummated, George Crocker and Hamilton, of the firm of Baker & Hamilton, taking a small interest. A portion of the money was paid over, but the salting was discovered before all was paid. It is understood that a suit will be filed to-morrow against the owners, who are partners in the firm of the Agony Brothers, represented in this city by W. Lonzo.

Arrested for Theft.

Special to the Journal.

FAESNO, March 18.—Frank Hansborough, said to be a brother of Congressman Hansborough, of South Dakota, was arrested to-day on a charge of stealing a gold watch and chain from a saloon keeper. Hansborough had only been discharged a week from the county jail.

Fire in a Mine.

Special to the Journal.

MARQUETTE, Mich., March 18.—The fire in the Norway mine is still raging. Five miners, caught in the ship, narrowly escaped death. General Superintendent Vello, Captain Bond and a party in the mine this morning were overcome by the smoke and had a narrow escape.

Free Ore Wanted.

Special to the Journal.

KANSAS CITY, March 18.—Resolutions requesting Congress to place no duty on ore containing no silver was adopted last night and to-day by the Board of Trade of Arkansas City, Winfield, Emporia, Topeka and Kansas City, Kansas.

Indicted.

Special to the Journal.

WASHINGTON, March 18.—The Grand Jury to-day reported an indictment against Kincaid for the murder of ex-Congressman Taubee.

THE WEATHER, ROADS, ETC.

What the State Papers Have to Say About Them.

While the March winds were hurling the dust in clouds through the streets of Reno the various papers throughout other parts of the State were discussing as to when they will be able to get rid of the banks of snow and the surplus water in their sections. Of the condition of things around Austin the Reveille says:

L. B. Logan, who drives the lone stage from his ranch here and return, reports the snow on the lone Summit fully ten feet deep, and that for a month they have been unable to cross it with the mail with a wagon or sled, but it has been carried by Walt Sheehan on horseback from the former's ranch to Lone. If the horse steps off the beaten track he sinks and flounders in the snow. Logan reports none of the water coming from this belt of snow reaching the river yet, but when it does, and from the ranges up the river, there will be a flood along the banks of the river the entire length of the river.

O. A. Pratt reached Battle Mountain on horseback yesterday afternoon at 4 o'clock, two hours behind the train, which left here at the regular time in the morning. The west-bound train is due there at 1:50 p. m. He started out from here Wednesday morning between 7 and 8 o'clock, thus being almost three days in making the trip. This time the engine against horseflesh got away with the bun.

Fred Steiner's meadow during the first of the week was completely covered with water, the first time that it has happened for several years. This ensures plenty of hay this summer. At that place the track was covered with several inches of water, which compelled Killen to run the engine slowly through it.

Out around Tascara the Times-Review says the situation is about as follows:

"The Elko stage leaves Elko on wheels. About a mile from town it changes to runners, and at Fox Springs again to wheels, which run as fast as Red Hill. Yesterday the driver started from Hunter's on wheels but was obliged to return and substitute a sleigh, with which he came into Tascara. If the soft weather continues for a few days the entire distance will have to be made on wheels."

Another week of the present weather and the surviving stock in this vicinity will be all right so far as the food question is concerned. New grass had sprung up under the snow and is already on the bare spots from two to three inches in height in places. It is a pity, however, that so few animals are left to feed upon it.

The Enterprise says: Chief of Police Tally had squads of men in different parts of town yesterday smoothing down the worst places in the streets. Taylor street, between C. and D. which was nearly impassable, was put in fair condition.

The Chief can only take the roughest off, as it would bankrupt the city to put all our streets in good shape for travel. The Hill Brothers, with a force of twelve men, yesterday broke the Ophir grade road to their slaughter house.

When Baby was sick,

We gave her Castoria.

When she was a Child,

She cried for Castoria.

When she became Miss,

She clung to Castoria.

When she had Children,

She gave them Castoria.

The Pacific Short Line.

There is considerable speculation going on just now, says the San Francisco Chronicle, concerning the Pacific Short Line, a road which for a good while has been in slow process of building from Sioux City westward to Ogden, the western terminus of which is now in Nebraska. It is ostensibly owned by the Manhattan Trust Company, but opinions have been divided as to whether it was backed by an independent company, the Illinois Central or the Chicago, Milwaukee and St. Paul. It has been stated on good authority within the past few days that the last-mentioned road is in possession of the line, and will, before long, have a western outlet which will enable it to more than keep pace with competing lines. When the road reaches Ogden it will present the shortest route from that place to Chicago, and it is among the generally accepted theories that a traffic arrangement with the Central Pacific will then be effected.

Winters' Horses.

The San Francisco Chronicle says:

Theo. Winters was in town all of last week. The moment he had written his name upon the Palace register he was besieged by reporters seeking information concerning the proposed purchase of El Rio Rey by a Chicago syndicate, but Mr. Winters would give them no satisfactory answer. It is learned, however, that he knows nothing about the scheme save what he has seen in the telegraphic reports, and that the Chicago people are after the River King they have not made any bid to his owner. The colt is at present doing slow work over the West Side track at Nashville, Tenn. He was sent there from Westchester along with Joe Courtney, Don Jose and Rascal last week, and is getting acquainted with his California relatives of younger years who went on east three weeks ago. Joe Courtney has charge of the string, but Mr. Winters will go over in time for the racing.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-ly

MISCELLANEOUS.

The importance of purifying the blood cannot be overestimated, for without pure blood you cannot enjoy good health. At this season nearly every one needs a good medicine to purify, vitalize, and enrich the blood, and we ask you to try Hood's Sarsaparilla. It strengthens and builds up the system, creates an appetite, and tones the digestion, while it eradicates disease. The peculiar combination, proportion, and preparation of the vegetable remedies used give to Hood's Sarsaparilla peculiar power. No other medicine has such a record of wonderful cures. If you have made up your mind to buy Hood's Sarsaparilla do not be induced to take any other instead. It is a Sarsaparilla, and is worthy your confidence. Hood's Sarsaparilla is sold by all druggists. Prepared by C. L. Hood & Co., Lowell, Mass.

A Fact.

In the future through the sky,
Surely man will fly,
By and by, by and by
That's a fact and not a fable.
Like birds in the air,
By and by, with our dear,
And why should not man be able.

But to start the ride,
Air is, for a heavy weight,
Very light, very light,
And George would surely fail;
Therefore at the ten cent store,
He almost stays for evermore,
And lends a every call.

BREVITIES.

It sprinkled a little yesterday afternoon. There is a prize fight on the topic between Keogh and Keller.

Mr. Riegelbuth will give a bon bon social in Armory Hall next Saturday evening. James O'Neill in "Monte Cristo," at the McKissick Opera House to-morrow night.

Sam Longobough expects to float 20,000 cords of wood down the Carson river the coming season.

Catherine Lying, was brought in from Lander county yesterday and committed to the Insane Asylum.

The Reno Guard will have a drill and inspection on the evening of the 25th, after which the boys will give a social hop.

Mr. O'Neill's impersonation of the title role is one of the most impressive and powerful characterizations to be seen on the American stage.

A weekly mail has been established between Winnemucca and Miller's ranch in Pleasant valley. Joseph Miller has been appointed Postmaster.

The gentlemen who have the contract for putting the heating apparatus in the U. S. building at Carson have arrived from Washington and commenced operations.

The remains of the late G. G. Brooks were escorted to their last resting place yesterday afternoon by the Odd Fellows, Good Templars and quite a number of friends.

Professor Robinson and wife gave a social dance at Verdi Monday night. There were about twenty-five couples present, and all enjoyed the Professor's fine music very much.

The V. & T. passenger train was over an hour late in arriving here from Virginia last night, caused by the late hour at which it started on its upward trip in the afternoon—about 4 o'clock.

A new rotary plow for the O. P. passed through Reno early yesterday morning from the East, and was put to work immediately after reaching Truckee, bucking snow in Strong's canyon.

Wreck at Verdi.

No. 6, going west, got stuck on the 25-mile grade between Reno and Verdi yesterday morning, and had to be cut in two and taken to Verdi in two sections. The wind was blowing a gale at the time and raining hard. In putting the cars in on the siding it seems that the brakes did not hold, and the jar of the engine, in going around them, started them back down the track. Four of the runaway cars left the track in front of O. Lonkey's residence, one of them being dinged in such a manner as to make the replacing of it a hard job, which was not completed until about 5 o'clock p. m. No. 1 had gotten past before the accident occurred, but No. 3 was not so fortunate and had to lay at Verdi until last evening, arriving in Reno for supper. No. 2 was held here until the track was cleared.

Railroad Inspection Party.

United States Railroad Commissioner Hassett, and party arrived here last evening, on a special train of two cars, ahead of No. 3 (which had been detained at Verdi by a wreck), accompanied by L. G. Curtis, Assistant General Manager, and several other railroad magnates. There were also in the party a number of ladies and two secretaries of Commissioner Hassett. The train was sidetracked here, but will continue on its tour of inspection this morning.

Beef Good and Fat.

W. D. Caraley, of Smokey Valley, came in from his ranch at the mouth of Brassfield Canyon yesterday, says the Austin Reviville of last Friday. He gives a favorable report of the stock and thinks no more than one quarter of the cattle are dead, and they are the old ones that would have died, if the grass were two feet high. Those that want good fat beef can get it without sending to Reno or any other place.

Sudden Death.

Wm. Sutherland, the job printer, of Virginia City, came down from the Comstock last night and continued on to the Bay, being called there by the sudden death of his mother, who died in San Francisco yesterday morning by congestion of the bowels. This venerable lady was at one time Matron of the Asylum here and has many friends in this section who will be pained to learn of her death.

RENO REDUCTION WORKS.

Nevada Needs Reduction Works—A Splendid Opportunity for Capital—Nevada and Colorado Ores Compared—Etc.

Commenting on the destruction of the Reno Reduction Works and the necessity of such works in this State, the Enterprise says:

The Enterprise hopes to see the works rebuilt the coming season. It hopes to see works built on the banks of the Truckee that will be deserving of the name of "reduction works."

There is no business proposition in the State of Nevada to-day that offers better inducements for capital—\$500,000 of capital.

Leaving out every other part of the State save and except the Brunswick lode, in this county, and there is sufficient ore in sight to warrant the expenditure of \$500,000 in a plant that would be able to reduce it, and it may not be out of place to add that the Brunswick lode is but an insignificant consideration in the object of building reduction works in this State.

The Occidental, upon the result of the working of which the fate of the lode principally depends, was located in early days as a lime quarry. There are several buildings in Virginia City built with lime burned at that mine. It was subsequently ascertained that the gypsum they were burning was the matrix of the metal silver, and the claim was relocated as a silver-bearing lode. There is no quartz there. The gangue is composed of gypsum, sulphur—making lime—and manganese.

We have no available means in this State to reduce this ore—to separate its minerals. Amalgamation has been tried and found sadly wanting. The sulphur in the ore must be gotten rid of. Chlorination is the best means known to get the highest percentage out of it. We have no works in this State to do this, and we want them.

If the Occidental had made a success of its works there would be to-day 200 men working on that lode, and half a dozen companies could to-day raise all money they needed to prospect their claims.

If we get the proper reduction works in this State, the Occidental, or rather the Brunswick lode, can be worked at a profit.

We are extracting out of the ores in Nevada much less than 80 per cent. The only mine paying decent dividends—orange dividends—in this State, extracts but 80 per cent. of the silver and gold contained in its ore—and gets nothing else out—and that is the best work done in the way of milling in this State.

Now, is that not butchery of our prominent industry, taken at its best?

The tailings, slag, speiss or dump of the reduction works of Denver are absolutely worthless—so far as science is able to do anything with the refuse. It assays but three per cent. In this State the profit—the diamond—of the matter is that which has flowed from the pan.

By all means, let the reduction works of Reno be rebuilt, and let there be such additions built as may be necessary to enable them to reduce the ore of this State, and separate the metals contained in them, and get at least 95 per cent. of their assay value.

There is not a mine in Colorado worked to-day that could maintain itself if only 80 per cent. of the assay value of its ore was extracted from it. There are a number of Nevada mines that can do it.

Monte Cristo.

There is no reason to grumble loudly at the attraction at the Opera House to-morrow night, for an actor of great ability will appear in a character which he has made his own. James O'Neill in "Monte Cristo" is certainly an attraction of a high standard. The company he brings with him is nearly the same as that which supported him here in the same play, and it contains actors of ability. Dumas' great work, "Monte Cristo," as interpreted by James O'Neill, is a masterpiece. The plot of "Monte Cristo" is one of those prolific conspiracies of modern French history, where human lives are destroyed by false imprisonment, conspiracies and murder for the purpose of securing title and money. Were it not that this production is familiar to the public it would be an exceedingly pleasant task to review its many striking features at this time. As it is, it is safe to say that the play has lost none of its thrilling interest or melodramatic effectiveness. Its many strong situations and picturesque tableaux are novel, inspiring and fascinating. Mr. O'Neill's work is imbued with great dash, grace, fire and chivalric spirit, and its artistic and salient points are made to tell with splendid effect.

Benefits of a Military Post.

The following from the Omaha Bee shows clearly what benefit a Military Post located here would be to Reno and vicinity and the State in general: "The importance of the Department of the Platte as a supply depot for army posts in Nebraska, Dakota, Wyoming, Colorado, Utah and Idaho is again shown by the necessity of erecting new and larger buildings at the Government corral in this city. The dispatches from Washington indicate that the Secretary of War has approved the plans for an immense warehouse to be erected as soon as the appropriation is allowed. The building demanded is one of a number of the same character to be erected in the near future. The plans call for a brick structure 50x300 feet, three stories in height, to cost not less than \$60,000. It were well to bear in mind when summing up the business resources of Omaha, to include the Department of the Platte, which disburse from its depots in this city, supplies amounting to \$2,000,000 annually, many of which are bought in the local market."

Spring Rains.

After two or three days of bluster and cloudy weather, a gentle rain started in last evening and when the JOURNAL went to press this morning, Reno was receiving a genuine warm Spring shower.

WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John Jones or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as DEER'S BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do it will cost you nothing.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

NOTICE OF DISSOLUTION OF PARTNERSHIP.

THE PARTNERSHIP HERETOFORE existing between Wm. M. Anderson and John Bowman, under the firm name of Wm. M. Anderson & Co., is this day dissolved by mutual consent. WM. M. ANDERSON, JOHN BOWMAN.

SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the county of Washoe. The State of Nevada sends to Archibald Gibson, Esquire, for service hereby required to appear in an action commenced against you as defendant by A. E. Gibson, as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons (exclusive of the day of service), if served in said county, or twenty days if served out of said county but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the judgment and decree of the Court dissolving the bonds of matrimony heretofore and now existing between you and this plaintiff, upon the grounds of desertion and failure to provide plaintiff the common necessities of life, through abundant ability to do so, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand and affixed the seal of said Court this 31 day of March A. D. 1890.

AUBIN BERGERET, Clerk of the District Court of the State of Nevada, in and for the county of Washoe.

SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the County of Washoe. The State of Nevada sends to Vincenzo Alberti, defendant, greeting to appear in an action commenced against you as defendant by Maria Alberti, as plaintiff, in the District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, or twenty days if served out of said county, or forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the judgment and decree of the said Court dissolving the bonds of matrimony now existing between you and said plaintiff, on the grounds of extreme cruelty on your part toward her, practiced by you since the marriage between you and said Maria Alberti, all of which will more fully appear from the complaint which is on file in the office of the clerk of said court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand this 13th day of February A. D. 1890.

R. H. LINDSAY, Attorney for Plaintiff.

ASSESSMENT NOTICE.

SOUTH SIDE DRAIN DITCH COMPANY—Location of ditch, Washoe county, Nevada; principal place of business, Reno, Washoe county, Nevada. Notice is hereby given that at a meeting of the Board of Trustees of the above named company, held on the 8th day of March, 1890, an assessment (No. 8) of seven and one-half cents per share was levied upon each and every share of the capital stock of the company represented by each and every acre of land benefited by said ditch, payable immediately in U. S. gold coin to John B. Williams, Secretary and Treasurer, at his office in the Court House, Reno, Nevada. Any stock on which this assessment shall remain unpaid on

SATURDAY, THE 12TH DAY OF APRIL, 1890,

shall be deemed delinquent, and such proceedings as may be necessary will be had against the land benefited, and against the delinquent owner, to collect such delinquent assessment, together with the costs and expenses. By order of the Board of Trustees, JOHN B. WILLIAMS, Secretary.

Reno, March 11, 1890.
